SMALL FIRE AT REFINERY.

An overheated steam still was the cause of a small fire about 8 o'clock Monday evening at the Farmers Valley Refinery. When the oil which had reached a 300 degree F. heat came out of one of the gauges, it ignited instantly on coming in contact with the air.

The fire was put out so soon that no serious damage resulted, only the covering around the still being scorched.

The refinery has splendid facilities for fighting fire, having two two hundred foot wells, and a large reservoir and its own fire equipment.

CAT RESCUED BY FIREMEN AFTER SPENDING TWO DAYS ATOP POLE.

After two days and a half of isolation in the top of a telephone pole in River street, a lanky cat was rescued at seven o'clock Saturday night after a kind hearted woman called firemen at number three for aid. The "meows" of the feline were becomming weak when one of the firefighters managed to pull Mrs. Kitty from her elevated but precarious predicament.—Olean Herald, April 7.

BORO COUNCIL WILL PAY HALF ON CINDERS

The Boro Council met Monday evening in the Hose House. It was voted to pay the bills for the month.

Dr. W. A. Ostrander was elected in the place of J. A. Nellis, who recently resigned. The council voted to pay one half the freight on cinders from Clermont, if the property owners will pay the other half. This is a good chance for those having bad mud holes on their property to get them filled at a moderate cost.

INJUNCTION IS REFUSED.

Judge J. W. Bortin of Smethport refused the application of P. C. Stack and others for an injunction restraining the building and operation of the city incinerating plant on the Debo farm below town, at a preliminary hearing held this morning at the city building at 9 o'clock.

Separate injunction suits were filed by P. C. Stack, Stack Brothers, and Albert B. Miller, and all were heard at one hearing. As a result of the judge's refusal to grant an injunction at the preliminary hearing today, the work which was started about two weeks ago on the new incinerating plant, can continue. The hearing was not of long duration, lasting about one hour's time.

The city was represented by City Solicitor F. M. Nash and F. D. Gallup, Esq.; while Stack and the others were repisented by Wilson and Fitzgibbon and John E. Mullin.

Road From Portville to Penna State Line Will be Built.

Eldred Eagle: Senator DeHart Ames has notified the Olean Automobile Club that the Highway Bill which has passed the New York State Senate and is now in the Assembly provides for the improvement of the one and nine-tenths miles of dirt road from Portville to the Pennsylvania State line on the Eldred-Portville highway. Appreciating the interest taken in the road by the residents of this section and by the Olean Automobile Club, Senator Ames and Assemblyman L. G. Kirkland have worked for the bill. The construction of this section of the road would connect the state road in New York state to the Pennsylvania line and Eldred people look forward to the completion with the keenest of interest. Word has been received that the survey of the Larabee road to Port Allegany will start at once, one surveying crew to begin work this week and another next week. With two crews on the job the work of surveying should make rapid progress.

BELL RINGERS GAVE FINE CONCERT.

The concert given Friday evening April 4th by the Scandinavian Bell Ringers at the Swedish Mission church, was one of the finest ever given here. The members of the company, five in number were all artists in their line. They played on 125 bells varying in size from 8 ounces to 15 pounds and their selections were well chosen and beautifully played.

A ladies quartette consisting of Mrs. Fred Hallstrom, Mrs. Victor Hallstrom and the Misses Anna and Ellen Hallstrom rendered one beautiful selection, and a male quartette consisting of Messrs Fred Paul and Victor Hallstrom, and Seth Norman also furnished a very pleasing number. Miss Ellen Hallstrom sang a solo which was much enjoyed.

MOTHER LEAPS WITH BABE FROM WINDOW

Olean, April 8.—Trapped by flames and smoke on the third floor of her home in North Union street early this morning, Mrs. Guy Ross, 21 years old, with her year-old baby in her arms, jumped from a third-story window to the ground. With the exception of a slight burn on one arm from coming in contact with a wire, she escaped injury. She retained hold of the baby and it also escaped injury.

Her husband, who discovered the fire, picked up an older child and telling his wife to carry the baby and follow him, safely made his way to the street. His wife followed him some distance but despairing of getting through the dense smoke took the chance of jumping. The husband was returning to the building in search of his wife when he heard her land on the sidewalk near the house.

TEN BARREL WELL STRUCK IN VICINITY OF KANE.

A ten-barrel oil well was struck on the Pitlock lease about 10 miles west of Kane, yesterday, and from all indications it will hold up to that production. The oil was struck at a depth of about 2,000 feet, in the Cooper sand. The well will be shot Monday and may make a much better showing. It is the first well to be drilled in in that vicinity for some time. The Pennsylvania Gas company and the Camp estate adjoining this property and those interests which have already drilled in several wells, some good and some poor, will start the drill going again. The Pitlock lease contains about 25 acres and was formerly known as the Fitzgerald lease. Twenty wells have been drilled in on the lease within the past 15 years.—Kane Republican, April 5.

Marion Burdick another member of the Senior Class is confined to his home by illness.

The Legion has arranged to use special markers and flags on Decoration day on the graves of the veterans of the World War and Spanish American Wars, which will designate the war in which each fought.

IS IT THROUGH FEAR OR LACK OF INTEREST?

Evidence in Boot-Legging is Easily Obtained but Convictions are Hard to Get.

SYSTEMATIC BOYCOTT MEASURES USED ON WITNESS

J. J. Allison in a recent report interview states that the greatest drawback in the enforcement of the liquor law is the lack of interest of the average citizen. He also stated that McKean county was superior to numerous other counties in this respect.

Mr. Allison has been investigating the complaints of 23 different persons in Kane who send complaints to E. G. Potters office in regard to the violation of the liquor law, and was much disgusted with the result of his search for witnesses. While many are ready to make complaints, regarding alleged bootlegging, it is hard to secure evidence enough to warrant arrests.

While he was on this subject he related an experience he encountered, in working on a case at Betula, where a foreigner was suspected of making and selling moonshine liquor. The man also was supposed to conduct a sort of bakery business. After complaints had been received Mr. Allison believing he had the right under the state enforcement law, entered the premises and searched them. He found a still and a quantity of raisin jack, as well as 600 pounds of raisins. He found that the man had purchased a ton of raisins within a few weeks. Then he started his search for witnesses and interviewed practically every adult person in the village.

While the complaints had stated that "everybody" knew the man was a bootlegger, the county detective after a week's work found two people who were willing to appear as witnesses against the defendant. The result was the detective found that he could not even prove that the man was in the baking business and was placed in the position of an officer who had entered a private home without legal authority.

Furthermore, the detective said, that one of the witnesses was a store keeper and that since the affairs has been the victim of a systematic boycott on the part of the defendant's friends which has seriously cut down the resources of his business.

Mr. Allison says he has found that he must proceed with the utmost care and be sure he has the goods on the offender before he can risk an arrest and the greatest difficulty he encounters is the average citizen to help him along.

THE HARDING MEMORIAL ASSOCIATION.

There was incorporated under the laws of the State of Ohio the Harding Memorial Association which has for it's purpose the erection of a memorial to Warren Chamaliel Harding, 29th President of the United States. The corporation has authority to erect and maintain at Marion, Ohio, a mausoleum wherein to place the remains of the late President Harding and Florence Kling Harding, his widow when she shall have passed away; and to hold in perpetuity by deed, gift or otherwise, the necessary real estate for which to place said mausoleum and on which to lay out places that parks for its proper improvement and beautification also to acquire the home of the late Warren G. Harding in the city of Marion, Ohio for conversion into a shrine wherein all personal effects, books, speeches, and belongings of the late President may be preserved in affectionate memory and understanding and to which all people may go for inspiration.

It has been the custom to keep mementos and souvenirs which have been given to the Presidents, in the mausoleums to which their remains were consigned, but this is not considered desirable by the Harding Memorial Association. It is therefore the idea of the Association that there be erected a special fire proof building in which to place them.

It is the wish of those charged with the responsibility of a proper memorial, that some arrangement may be made whereby scholarships, opportunity for study and more extensive understanding of the Government—National, State and Local—May be brought about.

Some of the organizers of the Association were President Calvin Coolidge, Hon. Charles E. Hughes, Hon. Andrew W. Mellon, Hon. John W. Weeks, Hon. Herbert Hoover, Hon. H. C. Wallace, Hon. James J. Davis, and many other eminnent men.

It is necessary to raise for the erection of the said mausoleum and the erection of the said shrine, the sum of $1,500,000.00. M. S. Geary of this Borough is the local chairman, and those in Smethport who care to contribute may leave donations with him.

Mr. and Mrs. G. H. Denning and Mr. and Mrs. F. J. Quirk motored to Buffalo Tuesday to consult a specialist in regard to Mr. Denning's health. Mr. and Mrs. Quirk returned Wednesday leaving Mr. and Mrs. Denning there for a short time while the former undergoes a course of treatment.

LITTLE GIRL BADLY CUT.

Mildred Warfle seven year old daughter of Mr. and Mrs. Norman Warfle of Hazelhurst, fell Friday and cut the index finger of her left hand on a broken fruit jar. The little girl was brought to Smethport by her aunt, Mrs. C. W. HE IS PLEDGED TO THE PRESIDENT

Thousands of thrifty workers own telephone property in Pennsylvania—represent investment savings of the people of Pennsylvania. A hundred and twenty-five thousand such investors live in this State.

In putting their money into the telephone business they had faith that the people of Pennsylvania would pay reasonable rates for good telephone service.

As the telephone business expands it is necessary to go to the investing public and ask them to invest additional funds. We can secure that money only so long as rates for telephone service are such as to allow an adequate return on the money invested.

The present rates do not so allow.

That's why we are asking the very same public at this time for a moderate increase.

In other words, we are asking "of the public, for the public."

EDITORIAL

SPEEDING UP WORK IN CONGRESS.

President Coolidge has taken a hand in an effort to speed the work of Congress. He was conferring with Republican voters during the week in the hope that a definite program can be pushed. Of course the tax question is uppermost. First of all, the demand of the taxpaying public is that there shall be enacted a measure that will reduce the income rates in a practical manner.

If this subject could have been considered free from partisan motives, the Mellon plan would have been adopted long before this. But Democratic leadership has insisted upon demagogic flattery play and has been abetted by Radicals who are falsely sailing under the banner of Republicanism. The Longworth compromise is impossible. The Senate Finance Committee has restored the Mellon schedule, but when the measure reaches the floor it will be opened by most of the Democrats and Radicals, and no one can tell what may come out of the mess. But one thing is very certain: The measure will have to be such that will meet the approval of the Treasury Department, or it will fail.

There is another certain thing: Unless partisan madness is restrained and unless the fiery fools who have obstructed business and turned the Senate over to the weird, wild and contemptible harangues are not gagged, there can be but slow progress. In that event Congress will have to be kept in session. It surely will be until the income taxes are disposed of, one way or another.

That Democratic partisans are beginning to comprehend that they have gone too far was shown last week when movements designed to turn Secretary of the Treasury Mellon and Assistant Secretary of the Navy Roosevelt out of office were sidetracked. The people are weary of looking upon a procession of queer women, bootleggers, self-confessed corruptionists, discharged government employees with grievances and former bandits parading before investigating committees. They are weary, too, of the conspiracy that has been so apparent—the conspiracy to destroy character by innuendo and to pull down public men by the lavish use of the mud-bombs of suspicion. They know how to separate truth from falsehood. They are satisfied to leave the oil leases in the hands of a court of justice where they have gone and they are convinced—or should be—that with a new Attorney General in whom all can put their trust, the Department of Justice will function with efficiency.

Investigating committees will now be expected to come back to solid earth; extremists in the Senate will be expected to cease their noisy and disgusting attacks upon everybody and everything, and Congress will be expected to get down to genuine work and, above all else, pass a satisfactory income tax reduction bill.—Philadelphia Sunday Inquirer, April 5.

Public institutions are filled with men and women who were too late in learning the importance of saving as they earned.

The farsighted man will store up part of his earnings as a protection against that time when he is no longer able to produce according to his needs.

Then, when his earning capacity has diminished, he will still be independent and able to enjoy old age without care or suffering.

PREVENT FOREST FIRES

Mr. Fisherman:—

As you no doubt know the Federal Government has established the Allegheny National Forest in Northwestern Pennsylvania. A portion of this forest is located in this County. Every year more lands are being purchased and added to it. A National Forest is public property and as such is available for use by all who do not abuse the privilege. We are anxious that hunting and fishing within the Forest be improved and want your help in improving it.

Forest fires destroy forests.

Without forests hunting and fishing can amount to but very little. Every sportsman should be anxious to do everything possible to prevent and suppress forest fires. Such unfortunately, is not always the case. Last year fishermen caused at least three fires within the National Forest that burned a total of 2000 acres. The damage to timber amounted to approximately $4000 and it cost $2500 to fight the fires, a total of $6500. One fire was caused by a fisherman leaving his camp fire without putting it out. The other two by the throwing down of lighted matches or smoking material. All were brought about through criminal carelessness.

This year we hope to go through the season without a single "fisherman" fire. Such a record would encourage us to plan on restocking our fishing streams, whereas, reduction or last season's losses can be only by a more restrictive policy with respect to fishing within the National Forest.

Let's not "kill the goose that lays the golden eggs" rather let's make the Allegany National Forest the best fishing region in Pennsylvania. I am sure that the support of every good fisherman can be depended upon.

L. L. Bishop,
Forest Supervisor.

SCHOOL~

The little crossroads schoolhouse held only a score of pupils. In case of fire, exit was easy for all.

Today our schools literally turn away pupils, often working many classes in morning and afternoon shifts. Despite constant fire drills we frequently have appalling disasters from such crowded buildings. Suppose one of the victims was *your* child.

A school building of concrete being fireproof is not only safe for children, but also safe for the taxpayer's money—for it is permanent. And in first cost it is but 6% more than one of impermanent materials. Ask your building material dealer to demonstrate to you what is true building economy. He knows.
